MISSION STATEMENT

Kapa's operations are focused on the manufacture of quality assorted food products, detergent powders, laundry soaps and personal care products. We lead the market in terms of quality and performance of products and customer service.

VISION STATEMENT

Kapa is committed to being the 'benchmark company' for quality products in Africa.

COMMITMENT STATEMENT

Kapa focuses on 'value for money'. We aim at providing our customers with premium quality consumer goods at competitive prices while operating in an environmentally sensitive and socially responsible manner. All our processes and procedures are of the highest quality, designed to give results of premium quality. The mechanics and techniques behind our processes and procedures give zero allowance for error, therefore producing high quality products and ensuring quality consistency.

CODE OF ETHICS FOR BUSINESS IN KENYA

Kapa Oil Refineries Ltd signed up to support and implement the Code of Ethics for Business in Kenya in March, 2012.

The Code of Ethics is an initiative of the business community through Kenya Association of Manufacturers to promote and enhance ethics and business conduct in Kenya. The code is based on the ten principles of the UN Global Compact as captured in the four thematic areas of Human Rights, Labour Standards, Environment and Anticorruption. The Company has established policies on these areas and not only implement them but also expects business partners to adhere to them and does not replace, but complements, the Company's Code of Ethics.

The Code states:

"We, the Business Community, recognise that ethical business brings about good business. We are committed to play a proactive role in building a globally competitive and prosperous nation, with a high quality of life, as envisioned in Vision 2030. As good corporate citizens, we commit to treating our stakeholders with respect, to run our businesses with responsibility, to act in compliance with applicable laws, and to be actively involved in corruption prevention.

Our commitment to these ethical standards determines our interaction with our stakeholders (that is, our organisations; our shareholders and investors; users of our products and services; our suppliers, contractors and agents; our society; and our state and government) and the environment". As a company, we aspire to live up to the code and adhere to its requirements, basing our company policies on the code and dedicating resources towards achieving aspirations of the code. We shall strive to ensure that our operations serve to strengthen this code.

As a socially responsible and ethical organization, Kapa commits to:

- Treating our stakeholders with respect.
- Run our business responsibly with accountability, integrity, honesty and transparency.
- Act in compliance with applicable laws.
- Be actively involved in the prevention of corruption.

It is our intention, as an organization, to live up to the spirit of the Code of Ethics for business in Kenya and conduct our business in an environment that is ethically sound.

HISTORY OF KAPA

The name 'Kapa' is an acronym derived from the title 'Karania Packers' which was established in the late 1960's as a salt packaging and baking powder manufacturing company.

Karania Packers grew steadily and within a short time, ventured into producing cooking fats and edible oils. As a result, it now became known as Kapa Oil Refineries Ltd. While trading in new territories, Kapa showed its commitment to innovation by being the first manufacturing company to introduce packing of cooking fats in reusable plastic containers; a norm that all cooking fat manufacturers now follow.

As the industry quickly expanded, Kapa steadily acquired more market share. In succession to the cooking fat and edible oils, Kapa started manufacturing a premium detergent powder: 'Toss', that took the detergent powder market by storm. Toss has been and still is the market leader in the detergent powder category. With continual research and development, Kapa saw prospective opportunities in the FMCG industry and proceeded to manufacture different varieties of laundry bar soaps followed by margarine, glycerine and luxury bath soaps.

In 2003, Kapa cemented its commitment to quality by being certified the prestigious ISO 9001:2000 award for its 'Quality

Management Systems' in the manufacture of cooking fats, edible oils, margarine, baking powder, laundry soaps and glycerine.

Kapa is proud to be the first company in the manufacturing sector to be HACCP UK certified for its edible oil processes. Kapa takes pride in manufacturing qualitative and affordable end products for its customers. Due to this factor, Kapa has always and keeps enjoying unmatched brand loyalty from satisfied customers.

Kapa's products are now trusted household names, not only in Kenya, but throughout East, Central, West and Southern Africa, as we export our diverse range of products to over 18 African countries serving the COMESA and SADC markets. Being a consumer health driven company, Kapa believes in the manufacture of safe and healthy edible products. Unlike other cooking fats, oils and margarines in the market, Kapa products are NON-HYDROGENATED. Hydrogenation is a harmful process which alters the composition of raw materials to resemble those of plastic with the addition of trans-fatty acids as a byproduct of this process. All our cooking fats and cooking oils are free of hydrogenation thus making them heart-friendly, cholesterol free and beneficial to the health and well-being of all our consumers.

We now have implemented **ISO 22000:2015 Food Safety Systems**

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Kasuku, East Africa's most popular cooking fat, is a pure white cooking fat manufactured using refined natural vegetable palm oil. You will enjoy cooking with Kasuku's soft and smooth texture. Kasuku is manufactured and packed under the highest international quality control standards.

- Kasuku cooking fat is enriched with Vitamin A, is nonhydrogenated and is cholesterol free.
- Kasuku contains poly-unsaturated fats, making it a healthy substitute to other cooking fats found in the market.
- Kasuku tubs are foil-sealed, thus ensuring the product retains its freshness and reaches you free of contamination, pilferage or tampering of any sort.
- In addition to shallow and deep frying, Kasuku works wonders for general everyday stew and curry use.

PURE WHITE COOKING FAT
Give your meals the Tilly touch!

Tilly is made from pure and naturally refined vegetable palm oil. This semi-solid white cooking fat is a combination of a quality product with an economical pricing, giving our customers value for their money.

**GIVE YOUR MEALS
THE TILLY TOUCH!**

- Tilly is not hydrogenated and contains polyunsaturated fats thus making it very healthy for consumption.
- Cholesterol free and rich in Vitamin A, this cooking fat will give your meals a touch of excellence. Give Your Meals the Tilly Touch!
- Use Tilly for shallow and deep frying, cooking of vegetables as well as meat in stews and curries.
- Use Tilly for a scrumptious meal of fried fish and chips.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Alpa is a yellow cooking fat manufactured from pure refined natural vegetable palm oil and is an economical choice of deep frying fat.

- A cooking fat free from hydrogenation; it is cholesterol free and healthy for consumption.
- Manufactured and packed under the highest quality control standards, Alpa is available in economy pack sachets, plastic buckets and polythene lined cartons in retail outlets across the country.
- Alpa delivers a tasty treat to your dining table when used for shallow and deep frying of meat and vegetables.

Rina®

Deep Frying Fat

Rina DFF is a semi-solid yellow deep frying cooking fat, made from pure refined natural vegetable palm oil.

- High in quality and very economical.
- Rina DFF is NOT hydrogenated thus making it healthy for consumption.
- It has a high melting point and long fry life meaning it can tolerate high temperatures and it does not burn out quickly.
- Use it for making mandazis and chapatis for that wonderful taste.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Ghee is a type of clarified butter that originated in South Asia. Kapa Ghee is a vegetable oil based product manufactured from vegetable palm oil that can be used for all-purpose cooking.

- Kapa Ghee is purely of vegetable origin as opposed to the animal origin of other similar products in the market.
- Cholesterol free and hydrogenation free, it is beneficial to consumer health.
- It has a very traditionally coarse granular structure and a rich pleasant flavour, giving your food a crisp golden outer coating.
- Manufactured and packed under the highest international quality control standards, Kapa Ghee is available in a plastic bucket.
- Use Kapa Ghee to make finger-licking dishes.

Seagull is a yellow deep frying fat, high in quality and economical.

- A discerning choice for most catering establishments in and around the country, as it has excellent stability at high cooking temperatures and a long frying life.
- Manufactured using pure refined natural vegetable palm oil and is NOT hydrogenated, making it cholesterol free and healthy for consumption.
- Manufactured and packed under the highest quality control standards.
- Seagull promises to give you the best value for your money.
- Use Seagull for frying chicken, fish and vegetables.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Prestige[®] MARGARINE

Having a base of pure vegetable oils, this smooth and premium margarine has a soft yellow colour with a fine refined taste. You'll find it hard to believe it's not butter!

Spread the fun

- Not only is Prestige Margarine made from cholesterol free oils and fats, but it is also very rich in Vitamins A, D, E, B6 and B12.
- Prestige does not contain any hydrogenated oils or fats, making it healthy for consumption.
- Use Prestige Margarine for all your spreads and sandwiches.
- Prestige Margarine is used to make delicious bread, cakes, creams and pastries.
- Prestige Margarine can be used to make tasty chicken and fish poussin sauce.

Kapa manufactures a specialty puff pastry margarine that produces pastries with a buttery feel and is ideal for both sweet and savoury puff pastries. During baking, fat that has been rolled or folded into the dough traps steam and separates the dough layers to create the mouth-watering flakiness. Bredbest Pastry Margarine is a vegetable oil based margarine and is enriched with various vitamins. Its texture and plasticity makes it ideal for general purpose puff pastry for both sweet and savoury puff pastries. During baking, fat that has been rolled or folded into the dough traps steam and separates the dough layers to create the mouth-watering flakiness.

Bredbest Pastry Margarine is a vegetable oil based margarine and is enriched with various vitamins. Its texture and plasticity makes it ideal for general purpose puff pastry.

- Bredbest Pastry Margarine provides excellent plasticity so that it can be folded.
- Bredbest Pastry Margarine offers high functionality so that the best expansion can be obtained offering a good layered effect.
- An excellent yellowy pastry margarine ideal for all puff pastry uses that has good volume, is soft and has a pleasant buttery aroma.
- Available in a 5kg polythene-lined cardboard carton.

Rina Vegetable Oil is processed in an extremely modern and technologically advanced refining plant.

Mapishi
poa,
Madishi
poa!

- This triple refined pure vegetable palm oil is nonsticky, with a low tendency to smoke and has an extended life.
- This makes it extremely economical as it can be used over and over again.
- Ideal for both shallow and deep frying, Rina Vegetable Oil gives your food a superior taste.
- Derived from palm oil which is rich in Vitamin A, Rina Vegetable Oil is beneficial to the health conscious consumer.
- Use Rina Vegetable Oil to fry crispy golden bhajias and crisps.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Mapishi POO, Madishi POO!

LIQUID TO THE LAST DROP for a smoooooth cooking experience.

Captain Cook Corn Oil is a 100% pure corn oil and is manufactured using the most modern refining processes and technologies available.

- It's cholesterol free, making it heart friendly.
- Captain Cook is fully winterised and thus does not solidify in cold weather. The oil is also de-waxed to avoid becoming cloudy in appearance.
- Rich in Vitamins A, D and E, it is ideal for your family's health.
- A multipurpose clear cooking oil, it can be used for shallow frying and deep frying.
- Use Captain Cook as an oil base for salad dressings, mayonnaise and sauces.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Postman Vegetable Oil is processed in a modern and technologically advanced refining plant.

- This double refined pure vegetable palm oil has a low tendency to smoke and has an extended life.
- This makes it extremely economical as it can be used over and over again.
- Ideal for both shallow and deep frying, Postman Vegetable Oil gives your food a superior taste.
- Derived from palm oil and rich in Vitamin A, Postman Vegetable Oil is beneficial to the health conscious consumer.
- Use Postman Vegetable Oil for all your deep frying needs.

Rhapso Vegetable Oil is a quality vegetable oil processed in an extremely modern and technologically advanced refining plant.

Did You Know?

- Our oil has a low tendency to smoke and is extremely economical as it can be used over and over again.
- Ideal for both shallow and deep frying, Rhapso Vegetable Oil gives your food a superior taste.
- Derived from palm oil, rich in Vitamin A, Rhapso Vegetable Oil is beneficial to us all.
- Rhapso is available in both consumer packs and bulk packs across the region.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Made from sunflower seeds, Rinsun Sunflower Oil has the nutrients Omega 3 & 6, vitamins and proteins that help to strengthen your body's immune system. Optimal balance of fats allow for excellent functionality and stability in cooking and frying. It's also consistent with current dietary fat recommendations that advise us to increase poly and mono-unsaturated fats while keeping saturated and trans-fats low. Rinsun Sunflower Oil is high in poly and mono-saturated fats, is naturally trans-fat free, making it a healthy choice over all other oils.

- Rinsun is appealing to customers because it is a clear oil and provides a clean, light taste that allows the flavours of foods to shine through.
- Manufactured and processed using ultra-modern refining technology, Rinsun is the ideal choice for the health conscious consumer.
- Fully winterised and de-waxed, it is cholesterol free and has mono-unsaturated fats which are heart friendly.
- Use Rinsun for your daily sautéing and salad dressings.

In the South of Spain lies the fertile land of Andalucía; the land blessed by nature and the crisp Mediterranean climate; the land that bears some of the finest olives in the world; the land that gives birth to Olivia.

Nothing but Olives

These harvested fine olives are mechanically cold pressed, to extract the rich golden olive oil. Needless to say, no solvents are added during processing and the product is free of any oils derived from the milling leftovers (like olive seeds or pomace). This is what gives Olivia its unique flavour and full-bodied taste, making it ideal for salad dressings, marinades and sautéing.

Elixir of Life

Research shows that Extra Virgin Olive Oil contains mono-unsaturated fatty acids, Vitamin E and powerful antioxidants that help decrease the overall risk of coronary artery disease. It is easily absorbed by the body and is known to slow down the ageing process. Little wonder, it is titled the healthiest cooking oil available on the shelf. Olivia Extra Virgin Olive Oil is approved by the International Olive Oil Council (IOOC), the Worldwide Governing Body for the Olive Oil Industry.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Nothing's
more stylish
than good
health

Introducing
Olivia
Extra Virgin Olive Oil
Cold Pressed

Health, like fashion, is not an option. It's necessity. Shipped straight from Andalucía, Spain, Olivia is nothing but the purest olive oil extracted from the first cold pressing. Rich in nutrients, as much as it is in the heady flavor. And you'll agree, a good body is the finest fashion you can ever wear.

SOLIO

Since the invention of fire, man strives for possibility and exploration. The desire to push boundaries stretches our imagination beyond limits known to us. In the same light, on our quest for transformative innovation, we have introduced Solio matches – a premium brand of safety matches crafted for the future. Each box contains an average of 60 waxed sticks each with a pink head that sparks instant attractiveness. The matchbox is yellow in colour and features a Maasai Moran- a constant symbol of Solio's strength, durability and resilience.

The following unique product features distinguish its head and shoulders above the competition;

- Long lasting- the matches light for extended periods enabling you to fulfil your lighting needs.
- Longer Splint – which facilitates ease of handling while lighting, cooking implements, campfires or cigarettes. It's also a crucial protective element on your fingers preventing them from burning.
- Even, Gentle Burning – the precise application of paraffin wax regulates the flame creating a larger evenly burned flame.

CHAPA MANDASHI®

Chapa Mandashi Baking Powder has been in the market for over 40 years and is the ultimate choice for all your baking purposes giving you 'perfect baking every time'.

- Manufactured using some of the finest processes and technologies, Chapa Mandashi has a pure white colour with ultra-superior quality ingredients.
- Use Chapa Mandashi for all your baking needs to experience perfect baking every time.

SPECIAL BAKERS[®] COMPOUND

Kapa's Special Bakers Compound (SBC) is used extensively by commercial bakeries in making bread.

- SBC contains special emulsifiers which impart softness and extended shelf-life to bread.
- It has no added artificial flavouring for the bread to impart its true flavour.
- Available in a 10kg polythene-lined cardboard carton.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

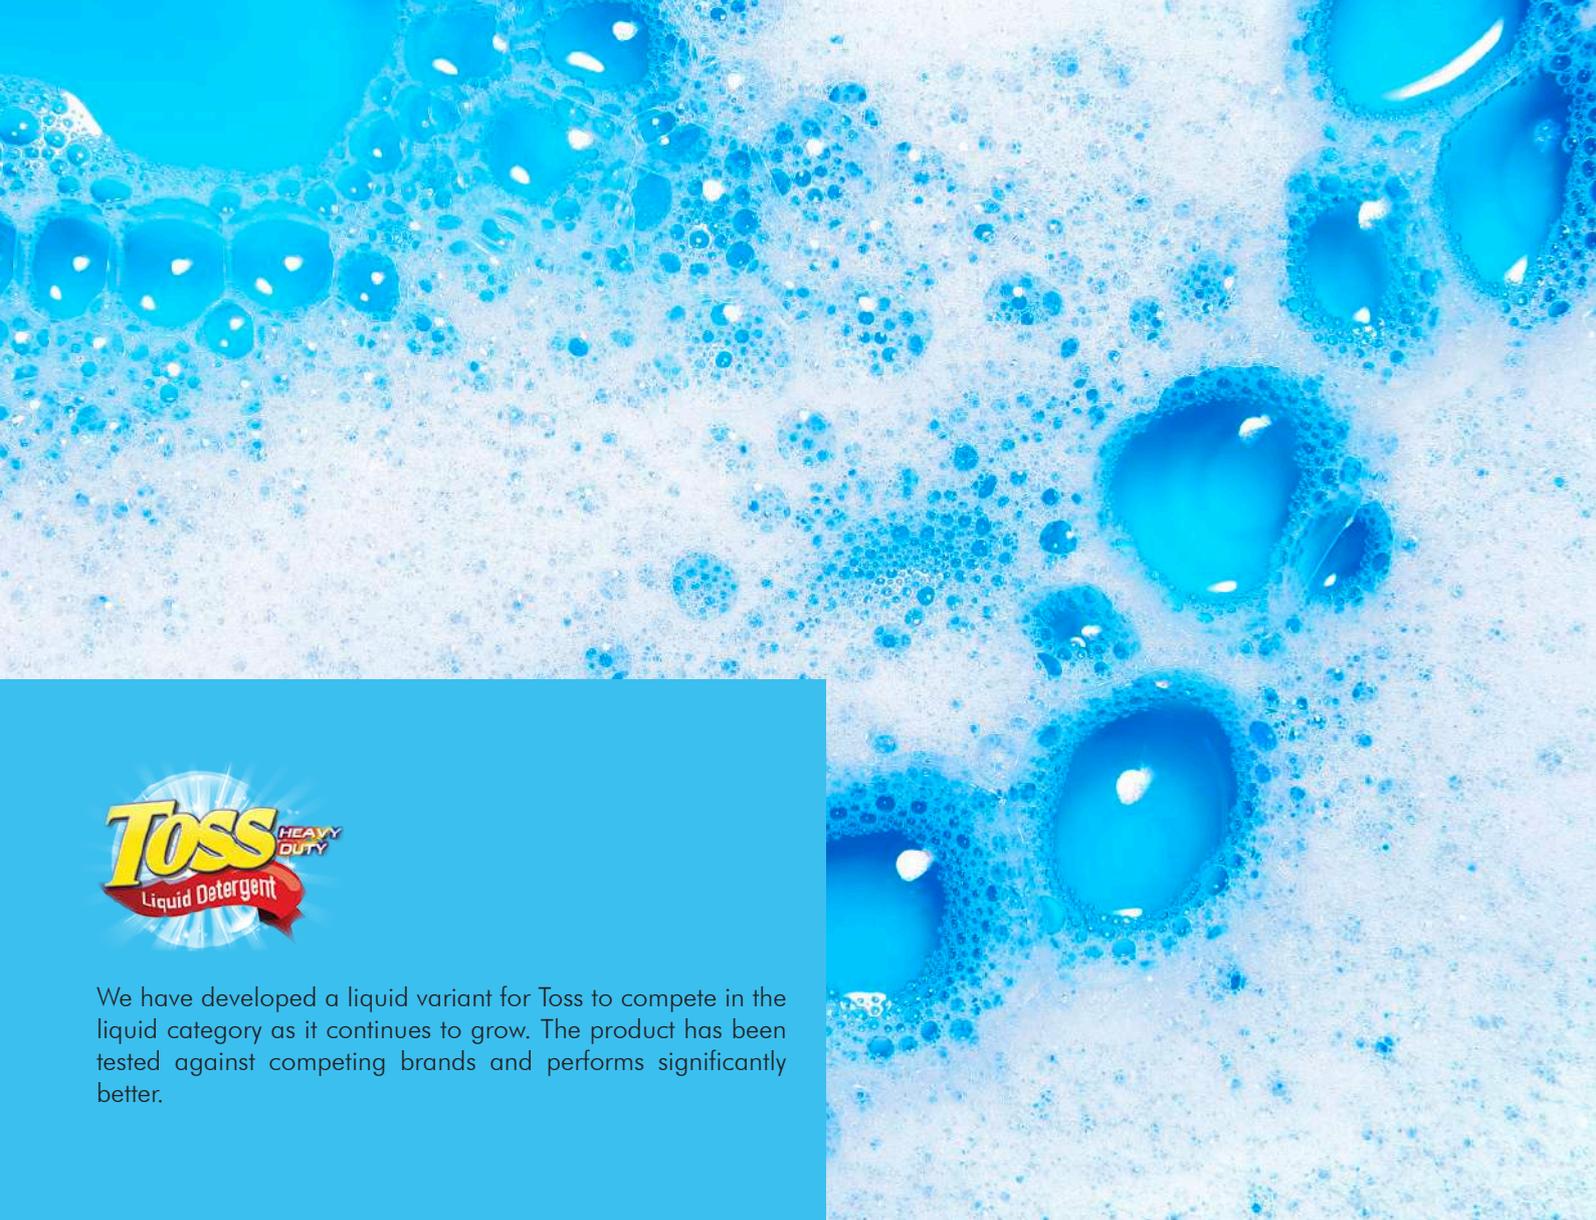

Toss

Toss Blue detergent powder is a high performance blue washing powder that has a powerful brand image and a large widespread customer base since the mid-90s. Now improved with stain fighting enzymes and a brand new fragrance, Toss Blue removes even the most stubborn stains, without affecting the colour of your clothes.

- Now improved with stain fighting enzymes and a brand new fragrance, Toss removes even the most stubborn stains, without affecting the color of your clothes.
- Toss is available in 5 variants; Toss Blue, Toss White, Toss Sensitive, Toss Bright, and Toss Lavender. Sizes range from 25g to 3.5Kg.
- Toss Lavender, White and Blue are available in 500g and 1Kg sachets.

We have developed a liquid variant for Toss to compete in the liquid category as it continues to grow. The product has been tested against competing brands and performs significantly better.

We have also developed a unique leak-proof bottle to help the product stand out in the market and help consumers see the bright blue colour. Available in 1L bottle.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Toss White Machine Wash is similar to the regular Toss White detergent. This machine wash detergent powder is made from the highest quality ingredients and specially formulated to give effective results when used with washing machines.

- Hard on stains and gentle on your clothes, Toss White Machine Wash is every modern household’s ultimate choice.
- Manufactured and packed under the highest international quality control standards, Toss White Machine Wash comes in a regular reusable 1.5kg bucket and is available in all leading supermarkets.

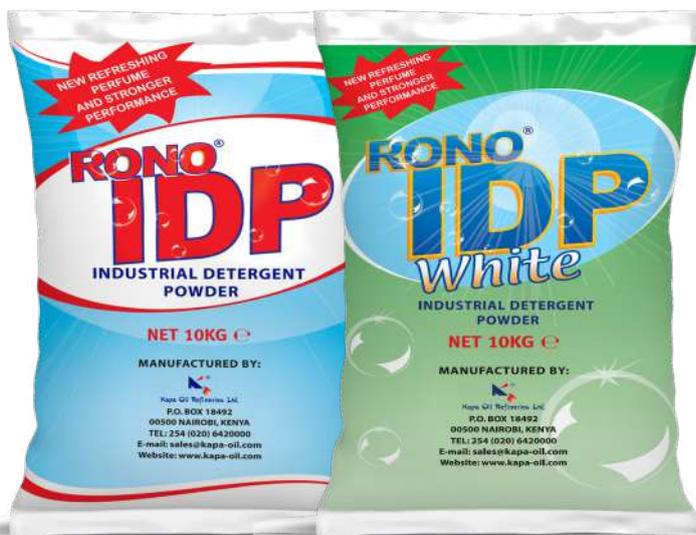

People with very sensitive skin are advised to use gloves whilst handling the Toss detergent.

We are proud to announce our latest addition to the KAPA family of brands, a new product line of Kitchen Paper Towels.

We are launching with a 'Cleanrol', a high quality 2 ply virgin kitchen paper towel made from pure virgin material. This makes it super soft and highly absorbent.

- Larger roll – our roll is larger than the rolls in the market giving you better value for money
- Softer and whiter – we are sourcing high quality paper, which makes our virgin paper products of international standard
- Strength: keeps on absorbing without disintegrating
- Scrubbing power – more scrubs just like using a cloth
- Thirst pockets – We are using high quality thick absorbent paper that ensures more absorption
- Embossing – High end plate used to create the ultimate feel
- SKU Available
- 2 pack x 24 (48pcs)

Medi-Rol

Safe, Clean, Effective

We are proud to introduce Cleanrol Medi-Rol into our growing portfolio of products. Medi-Rol is a medical paper towel made specifically for use in medical facility areas such as baby changing areas and beds.

- Cleanrol Medi-Rol is ideal for sterile medical procedures and helps stem the spread of viruses, bacteria and communicable diseases. It is super absorbent and does not tear easily, ensuring you and your loved ones stay safe and clean.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Softleaf toilet paper is a 2 ply high quality tissue made from pure virgin material. This makes it super soft and eco-friendly.

- Larger roll – our roll is larger than the rolls in the market giving you better value for money
- Softer and whiter – high quality virgin toilet paper
- Glued 2 ply sheets – Softleaf has an adhesive in between the sheets, which prevents the sheets from splitting and causing sheet mismatches
- Perforations – We are using a special blade for a clean cut every time
- Embossing – High end plate used to create the ultimate feel
- SKUS available:
 - 1 pack x 40 (40pcs)
 - 2 pack x 20 (40pcs)
 - 4 pack x 10 (40pcs)
 - 10 pack x 4 (40pcs)

Neptune® Toilet Paper

We are pleased to introduce our first product within our new category of Tissue Paper. Our first launch is a high quality blended Toilet Roll under the brand name Neptune.

- Larger roll – our roll is larger than the rolls in the market giving you better value for money
- Softer and whiter – we are sourcing high quality paper, which makes our blended paper comparable to virgin paper products
- Glued 2 ply sheets – Neptune is the only 2 ply blended tissue product on the market with a glue in between the sheets, which prevents the sheets from splitting!
- Perforations – We are using a special blade for a clean cut every time
- Embossing – High end plate used to create the ultimate feel
- SKUS available:
- 1pack x 40 (40pcs)
- 4pack x 10 (40pcs)
- We will however continuously expand our range.

A signatory to the UNGC and the Code of Ethics for business in Kenya.

Neptune[®] Jumbo Tissue Roll

Neptune Jumbo roll toilet paper is a 2 ply blended high quality tissue. It is a large 800 sheet roll giving you longer lasting value.

- Larger roll – our roll is larger than the rolls in the market giving you better value for money
- Softer and whiter – we are sourcing high quality paper, which makes our blended paper comparable to virgin paper products
- Glued 2 ply sheets – Neptune is the only 2 ply blended tissue product on the market with a glue in between the sheets, which prevents the sheets from splitting!
- Perforations – We are using a special blade for a clean cut every time
- Embossing – High end plate used to create the ultimate feel
- SKUs available:
- 1pack x 12 (12pcs)

Simplex[®]

White Toilet Paper

Simplex toilet paper is a 2 ply high quality tissue made from recycled material. It comes in 2 rolls, 200 and 150 sheets.

- Larger roll – our 200 sheet roll is larger than the rolls in the market giving you better value for money.
- The 150 sheet role comes very close if not similar in size to the market offerings as well.
- Softer and whiter – high quality recycled toilet paper
- Glued 2 ply sheets – Simplex has an adhesive in between the sheets, which prevents the sheets from splitting and having sheet mismatches
- Perforations – We are using a special blade for a clean cut every time
- Embossing – High end plate used to create the ultimate feel
- SKUS available:
 - 1 pack x 40 (40pcs)
 - 2 pack x 20 (40pcs)
 - 4 pack x 10 (40pcs)
 - 10 pack x 4 (40pcs)

Painotab is a high quality painkiller ideal for most pain types. It offers a strong and effective relief that shields you from the discomfort and disruption of pain. This gives you the freedom and the confidence to live happier; enjoy, and care for what is valuable to you.

It is uniquely formulated to contain Paracetamol 650 mg and Caffeine 30 mg. Paracetamol is an effectively tough painkiller for most pain types. Caffeine is an adjunct that gives Paracetamol extra strength. The combination of the two gives PAINOTAB extra strength and fast speed. It does not contain ASPIRIN – which makes it mild on the stomach.

PAIN TYPES TREATED BY PAINOTAB

1. Headache
2. Fever
3. Body Pain /Ache
4. Menstrual Cramps
5. Toothache
6. Sore Throat
